About Company:

NeuZen Technologies was incorporated in 2011 with registered offices in multiple countries. Currently we have more than 40+ direct employees providing support and ITES services. NeuZen Technologies Private Limited, an Indian based registered company with its global partner companies is a total solution

company with the capabilities of IT services & infrastructure deployment, Audio Visuals, Electrical Contractor & Consulting services, Business process management services. NeuZen Technologies helps customers to do business better by leveraging industry-wide experience, deep technology expertise, comprehensive portfolio of services and robust business model.

Since 2012 as NeuZen, we maintain a large inventory of various inputs including imported devices and gadgets in order to meet the customer's requirements in an efficient manner. We ensure the world class end product i.e. Audio Visual project within a shortest possible time frame. Our executives, installation teams and service staff are always just a call away from our customers. We pick and choose only such world-class systems that match and reflect the customer's (organisation's) status. Special emphasis is laid on ensuring that the systems used enhance the aesthetics of the Working Areas and become Statements of the Customer's Prestige.

NTPL has undoubtedly the best trained Technology professionals. Our technical teams are in regular touch with the latest technologies and they regularly upgrade their certifications provided by the best of the OEMs in the world. We not only understand the different technologies offered by our OEMs, but also carry out a lot of research and creativity in house to innovate the best of the solutions for our customers.

The NTPL executives bring a passion for service and a commitment to excellence.

Our Core Strengths:
